

THE MOON PROJECT

Print out this form

date time city, state, country

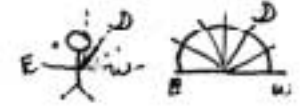

2.

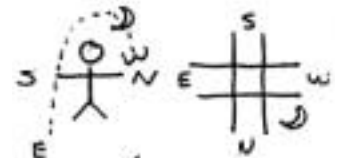

3.

you see: you draw:

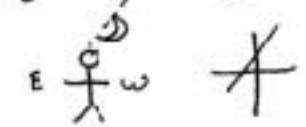

1. Face South. Use your arms to measure how high the moon is in its East to West arc.

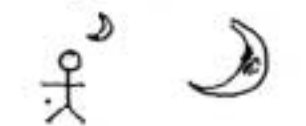

2. Pretend you are the center of the Universe and mark the North-South/East-West orientation of the moon relative to you on the tic-tac-toe symbol.

3. Still facing South, mark the angle. (if the moon is almost full, you won't be able to tell.)

4. Draw a portrait of the moon as you see it.

5. Mail to:
Sallie Wolf
Calypso Moon Studio
331 B Harrison St.
Oak Park IL. 60302
USA

I will post all cards returned on my website:
www.salliewolf.com

4. Draw the moon you see.

Good luck finding the moon--Sallie Wolf
